REACH Questionnaire – General Information

The REACH questionnaire is for general information so as to properly structure the initial REACH proposal. In many cases, only general numbers or information is required to define the scope of work. Detailed information will help refine the proposal.

Product Questions

- 1. How many unique CAS numbers including additives do you sell in Europe (general estimate)?**

- 2. How many unique suppliers (including parent or sister or subsidiary companies) do you buy chemicals from (general estimate)?**

- 3. Do you have any sister or subsidiary companies in Europe (Y/N)?**

- 4. If yes, how many of these import chemicals into Europe?**

- 5. What is the total weight of chemicals that you sell into to the EU on an annual basis?**

6. **Do you manufacture or re-package any chemicals or preparations (mixtures) of chemicals?**

7. **Have any of your customers made any requests to you concerning REACH? If so, in general, what was the substance of those requests?**

8. **Have you made any modifications to your terms and conditions of sale reflecting REACH responsibilities?**

Terms:

Article:

An object which, during production is given a special shape, surface or design which determines its function to a greater degree than its chemical composition

Chemical Substance:

A chemical element and its compounds in the natural state or obtained by any manufacturing process, including any additive necessary to preserve its stability and any impurity deriving from the process used, but excluding any solvent which may be separated without affecting the stability of the substance or changing its composition

Preparation:

A mixture or solution composed of two or more substances
